

How to Check Transcript/Test Score Status

If you would like to see whether a student's transcript has arrived at the Eligibility Center, or whether a test score is on file, here's what to do:

Mailed Transcripts

Account for the time needed for the mail to arrive in Indianapolis.

Then, go to our website at www.eligibilitycenter.org. Click on "Enter Here" for high schools and log into the system.

Click on the "Reports" tab and select your search criteria. The site will let you know whether a transcript or test score is on file for the student in question.

Electronic Transcripts

The Eligibility Center accepts electronic transcripts from the following providers:

Docufide

e-Scrip Safe

ConnectEdu

National Transcript Center

XAP

To view the student's core courses, grades, credits and actual test scores, you will need the student's Eligibility Center ID and the student's password to log in as the student.
