**LINDALE BAND EARNS HIGHEST POSSIBLE UIL RATING FOR
44 CONSECUTIVE YEARS**

The Pride of Lindale has now earned the highest possible rating for 44 consecutive years, after competing in a UIL district contest in Nacogdoches over the weekend.

“I am extremely proud of this group of students and for the leadership of our drum majors, squad leaders and seniors,” said Steven Moore, Lindale ISD Band Director. The band has worked hard and endured some adversities with weather this season. It is always nice to see hard work pay off, especially when you have to work through difficult situations. I would like to thank the LISD school board, administration, the LHS faculty and staff and the Lindale community for their support. In addition, I want to thank my hard working band parents for all their help this marching season.”

The Region Contest is judged to a standard as defined by UIL and the judges rate on a scale of 1-5. The overall ranking is a composite of all three judges’ ratings.

“I am so proud of the "Pride of Lindale," said Stan Surratt, Lindale ISD Superintendent. This band has grown so much this year, getting better each and every week with their marching performances. I can't imagine the amount of pressure these high school students were feeling, to uphold the great tradition of our band program. To perform at the highest level for 44 consecutive years is an amazing accomplishment. Mr. Moore and his directors should be very proud of this band and their great success, certainly one of the best band programs in Texas.”
